Subject: STIP: Girdwood to Anchorage, Seward Highway Improvements

Dear Sirs:

As a property owner in Girdwood, a member of Girdwood 2020 and a citizen concerned for the safety and welfare of residents and tourists who utilize this stretch of highway from Anchorage to Girdwood, I encourage you to carefully consider reinstating to the State Transportation Improvement Plan the *Seward Highway Improvements from Anchorage/Potter Marsh to Bird Creek*.

I am aware of and supportive of the letter you received from John Rense on behalf of the members of Girdwood 2020. I wanted to personally thank you for your leadership, discretion and foresight in consideration of restoring this initiative to the STIP.

Sincerely,

RIM Architects
